Mushroom Classification (Machine Learning)

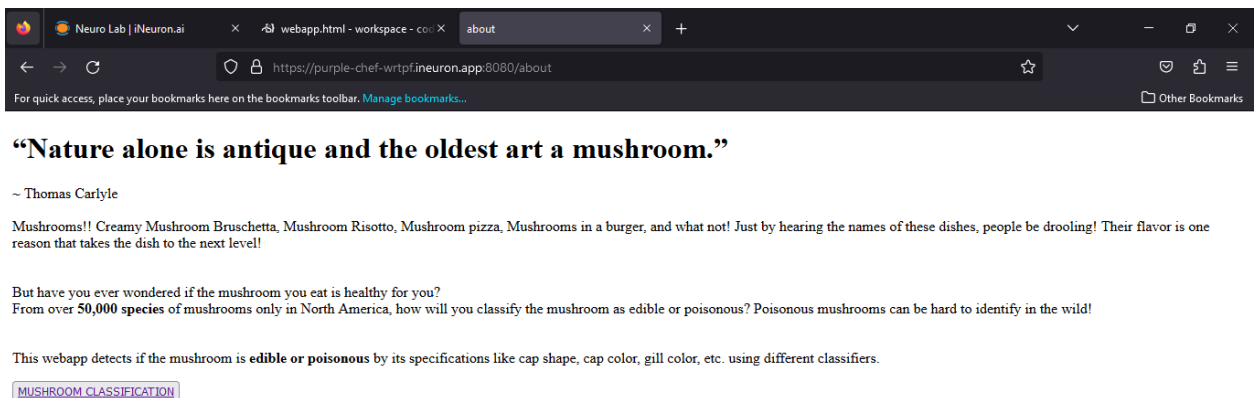

Project Member:

Amardeep Kumar

- ✓ This is the First page which will be shown on the window, in which 2 option will be shown such as About section and Mushroom classification.

- ✓ If someone click on the “About section”, then brief description will be shown of the selected topic.

- ✓ If someone click on the Mushroom classification option then certain option will be shown that need to be filled.

The screenshot shows a web browser window with the URL `https://purple-chef-wrtpf.neuron.app:8080/webapp`. The page title is "Mushroom Classifier". Below the title, there is a purple rectangular form containing several dropdown menus for input: "Gill color", "Spore print color", "population", "Gill size", "Stalk root", "Bruises", and "Stalk shape". Each dropdown menu has a "Select" button. Below these inputs is a "PREDICT" button. At the bottom of the page, there is a "Reset" button.

- ✓ If someone does not specifies all the necessary details asked and enters the 'predict button', then this we get this below notification.

The screenshot shows the same web browser window, but the URL is now `https://purple-chef-wrtpf.neuron.app:8080/predict`. The "Mushroom Classifier" form is still visible, but a dark grey notification box is overlaid on the "Spore print color" dropdown menu, displaying the text "Please select an item in the list." Below the form, the text "Mushroom is edible" is displayed, and the "Reset" button remains at the bottom.

✓ Enter all the necessary details

The screenshot shows a web browser window with the URL `https://purple-chef-wrtpfineuron.app:8080/webapp`. The page title is "Mushroom Classifier". Below the title, there is a purple rectangular form containing several dropdown menus for inputting mushroom characteristics. The inputs are: Gill color (Buff), Spore print color (Black), population (clustered), Gill size (narrow), Stalk root (bulbous), Bruises (No), and Stalk shape (enlarging). At the bottom left of the form is a "PREDICT" button. Below the form, centered, is a "Reset" link.

ABOUT

Mushroom Classifier

Gill color: Buff
Spore print color: Black
population: clustered
Gill size: narrow
Stalk root: bulbous
Bruises: No
Stalk shape: enlarging

PREDICT

✓ After giving all the necessary details if you will click on the predict button ,then this interface will be getting at the window ,whether the mushroom is edible or poisonous.

The screenshot shows the same web browser window, but the URL is now `https://purple-chef-wrtpfineuron.app:8080/predict`. The "Mushroom Classifier" form is still present, but all dropdown menus are now set to "Select". Below the form, centered, is the text "Mushroom is edible". At the bottom, centered, is a "Reset" link.

Mushroom Classifier

Gill color: Select
Spore print color: Select
population: Select
Gill size: Select
Stalk root: Select
Bruises: Select
Stalk shape: Select

PREDICT

Mushroom is edible
